Subject: Primacy Application Packet in 1981 with Volumes I & II & III

Hi Michele,

WE are planning to publish the exempted layers referenced in our Primacy Application on our website. As discussed with you yesterday, we are not quite sure if some of the 1978 (or even later maps prior to the submission date in 1981) may have been included in the referenced volumes. You said that we can copy these application documents including the referenced volumes so we can be assured that what we put out is what EPA received and approved in the MOA.

Does EPA R9 have an authorized copying service that can photocopy (or even digitize) these documents? We can perhaps arrange the copying of these documents with your authorized service provider and we will arrange payment with them. Kindly let me know if this is possible. Thanks.
